

## First Visit Checklist

Thank you for choosing the Women's Obstetric and Gynaecology Specialists to share this special time with you. We have prepared the following checklist to help you prepare for your first appointment with us.

**Please complete and send us these documents by email, fax or post 10 days prior to your first appointment:**

- Patient Information Form
- Privacy Information and Consent Form
- Medical History Form

**Please send us these documents by email, fax or post 10 days prior to your first appointment:**

- A referral from your GP
- A copy of any recent blood tests or ultrasounds

**Check your health cover**

Confirm that your health fund covers you for obstetric care as a private patient in a private hospital (WOGS obstetricians deliver exclusively at Frances Perry House).

**Read about prenatal screening**

Read the information on prenatal screening and consider whether you would like to test for Down Syndrome and other genetic conditions (more information is available at [www.vcgs.org.au](http://www.vcgs.org.au)).

**Book an ultrasound**

Book your 12-13 week ultrasound (a list of suggested ultrasound clinics is enclosed). You will receive your ultrasound referral at your first appointment.

**Read our fee schedule**

Please read the information on our fee schedule.

**Call the WOGS midwives two weeks before your first appointment**

Contact our midwives on 9348 1110. This allows us to confirm your appointment and to talk to you about upcoming tests and scans.

If you have any questions, please call 9348 1110 and one of our friendly receptionists or midwives will be able to help you. We look forward to meeting you soon.

Best wishes,

The WOGS team
